*Earth Sentinels: The Storm Creators* (Epic Fantasy) is a daring adventure that begins with the fallen angel Bechard somberly observing the world's natural resources being destroyed by mankind's greed, corruption and indifference. Realizing drastic measures are needed, Bechard searches for people who might join his quest to protect the planet before it's too late.

The fallen angel finds the 17-year-old, big-hearted Zachary, who had hoped to take over the family's organic farm until fracking ruined their water supply, and Billy White Smoke, a mysterious Native American who is the young man's mentor. Bechard also discovers Haruto, a courageous woman and spiritual healer living in Fukushima, Japan, who wants to fix the nuclear meltdown that is raging out of control; Mahakanta, a cotton farmer in India, who commits suicide after his GMO crops failed; an Amazonian tribal shaman and his beautiful daughter, Conchita, who are fighting against intruders illegally tearing down their rainforest; and the Bear Claw First Nation Tribe who are dealing with an unstoppable oil spill that is ruining their traditional hunting grounds.

Intriguing blue doors and ethereal mists beckon the characters to a spirit realm where they meet the mastermind Bechard and form an alliance with shamans, totem animals and earth's creatures. Together, they use supernatural powers to grab the world's attention, demanding that the world's leaders implement the changes...or else. But as the events unfold and governments retaliate, the characters are forced to question their motives, fight for their lives and listen to their hearts.

**"This compelling adventure shows that our struggles around the world are connected and that ordinary people have the power to change the world for the better."** -- Dr. Margaret Flowers, Popular Resistance
