Dark Matter in Astro- and Particle Physics: Proceedings of the International Conference DARK 2002, Cape Town, South Africa, 4-9 February 2002

The Fourth HEIDELBERG International Conference on Dark Matter in Astro and Particle Physics, DARK2002, was held in Cape Town, South Africa, in the period 4-9 February 2002. This majestic natural area was the site of the first conference of this series (hosted since 1996 in Heidelberg) to be held outside of Germany. Dark Matter has become one of the most exciting and central fields of astrophysics, particle physics and cosmology. The conference covered, as usual for this series, a large range of topics, theoretical and experimental. Topics included Astronomical Evidence for Dark Matter, the Cosmic Microwave Background, Supersymmetry, Inflation and Dark Energy, Structure Formation, Hot and Cold Dark Matter, and Ultrahigh Energy Cosmic Rays all of which were represented by experts in the field. It was very nice to see again many of our 'old' friends in Dark Matter here in South Africa. The organizers were very glad to see, in addition to world experts, the new generation here. Many young participants gave very nice professional talks during the conference. We are grateful to John Ellis for doing an incredible job preparing his excellent summary talk during the sessions. Some special interest and intensive discussions were naturally raised by the first announcement of terrestrial evidence for hot dark matter, obtained from neutrino less double beta decay. This now adds to the evidence for cold dark matter which we have from DAM A for several years already, and which remained unchallenged up to now by other experiments.

From reader reviews:

Patrick Pierce:

Book is usually written, printed, or created for everything. You can recognize everything you want by a publication. Book has a different type. As you may know that book is important issue to bring us around the world. Alongside that you can your reading ability was fluently. A guide Dark Matter in Astro- and Particle Physics: Proceedings of the International Conference DARK 2002, Cape Town, South Africa, 4-9 February 2002 will make you to end up being smarter. You can feel considerably more confidence if you can know about every thing. But some of you think that will open or reading a new book make you bored. It's not make you fun. Why they may be thought like that? Have you trying to find best book or appropriate book with you?

Steven Thomas:

This Dark Matter in Astro- and Particle Physics: Proceedings of the International Conference DARK 2002, Cape Town, South Africa, 4-9 February 2002 tend to be reliable for you who want to be a successful person, why. The explanation of this Dark Matter in Astro- and Particle Physics: Proceedings of the International Conference DARK 2002, Cape Town, South Africa, 4-9 February 2002 can be one of several great books you must have is usually giving you more than just simple reading through food but feed you with information that probably will shock your prior knowledge. This book is usually handy, you can bring it all over the place and whenever your conditions throughout the e-book and printed ones. Beside that this Dark Matter in Astro- and Particle Physics: Proceedings of the International Conference DARK 2002, Cape Town, South Africa, 4-9 February 2002 giving you an enormous of experience for instance rich vocabulary, giving you tryout of critical thinking that we know it useful in your day exercise. So , let's have it and enjoy reading.

Garth McDonald:

This book untitled Dark Matter in Astro- and Particle Physics: Proceedings of the International Conference DARK 2002, Cape Town, South Africa, 4-9 February 2002 to be one of several books which best seller in this year, that's because when you read this reserve you can get a lot of benefit in it. You will easily to buy this book in the book store or you can order it by using online. The publisher in this book sells the e-book too. It makes you quicker to read this book, since you can read this book in your Smartphone. So there is no reason to you personally to past this e-book from your list.

Henry Stanton:

In this particular era which is the greater person or who has ability to do something more are more treasured than other. Do you want to become considered one of it? It is just simple method to have that. What you need to do is just spending your time not much but quite enough to possess a look at some books. One of many books in the top collection in your reading list will be Dark Matter in Astro- and Particle Physics: Proceedings of the International Conference DARK 2002, Cape Town, South Africa, 4-9 February 2002.

This book which can be qualified as The Hungry Slopes can get you closer in turning into precious person. By looking up and review this guide you can get many advantages.
