## **Distributive and Procedural Justice: Research and Social Applications** Kjell Törnblom, Riël Vermunt

This interdisciplinary and cross-national volume brings together theory and research by prominent scholars within the areas of distributive and procedural justice, not only featuring work within each area separately, as is commonly done, but also showing how combinations of the two justice orientations might operate to affect justice judgments and guide behaviour. Chapters cover various levels of analysis, from intra-personal to interpersonal to group and societal levels. The volume is divided into four sections: distributive justice, procedural justice, distributive and procedural justice, and methodological issues. Each section is subdivided into two parts, basic research and applied research re: current and important societal issues. Each chapter contains an overview of theoretical and empirical research on a particular topic. The volume is designed for use on courses in social psychology, psychology, sociology, political philosophy, and law.
