Words of Crisis, Crisis of Words: Ireland and the Representation of Critical Times

This volume offers a collection of papers dealing with how adversities have been tackled and expressed artistically from various perspectives in Ireland. Taken together, the many approaches to critical times provided here prove how, surrounded by outbursts of pessimism, financial hecatombs, and individual and collective discouragement, the academic community can find meaning in hard, intellectual work, and in serious updated research. The chapters here are authored by scholars specialised in Irish Studies, and provide reflections and discussions on the broad topic of crisis and Ireland, its description and representation, and the different ways in which difficulties have been discussed, imagined, or even solved.
