Legal Knowledge and Information Systems: JURIX 2014: The Twenty-Seventh Annual Conference (Frontiers in Artificial Intelligence and Applications) R. Hoekstra

The JURIX conferences are an established international forum for academics, practitioners, government and industry to present and discuss advanced research at the interface between law and computer science. Subjects addressed in this book cover all aspects of this diverse field: theoretical focused on a better understanding of argumentation, reasoning, norms and evidence; empirical targeted at a more general understanding of law and legal texts in particular; and practical papers aimed at enabling a broader technical application of theoretical insights. This book presents the proceedings of the 27th International Conference on Legal Knowledge and Information Systems: JURIX 2014, held in Kraków, Poland, in December 2014. The book includes the 14 full papers, 8 short papers, 6 posters and 2 demos the first time that poster submissions have been included in the proceedings. The book will be of interest to all those whose work involves legal theory, argumentation and practice and who need a current overview of the ways in which current information technology is relevant to legal practice.
