This is the first book covering an interdisciplinary field between microwave spectroscopy of electron paramagnetic resonance (Epr) or electron spin resonance (Esr) and chronology science, radiation dosimetry and Esr (Epr) imaging in material sciences. The main object is to determine the elapsed time with Esr from forensic medicine to the age and radiation dose in earth and space science. This book is written primarily for earth scientists as well as for archaeologists and for physicists and chemists interested in new applications of the method.
