## **The Good, The Bad, and Others Who Teach** Leslie P Marks

I would like to make a rather bold proclamation. You have never read a book like this before, and you will never read one like it again. I'm sure you're already thinking you will find parallels with other books as you progress, and when you finish your reading, there will be a particular volume which comes to mind that compares at least in part to the plot, characters, and overall content of this work. Well, you're mistaken. But since we are always skeptical of absolute statements, such as I've just made, we must learn the hard way, and this case is no exception. So, when you've completed "The Good, the Bad, and Others Who Teach," I want you to reconsider this opening note and then determine its accuracy. You will remember a lesson you learned in elementary school, but have conveniently forgotten over the years. Teachers are never wrong! "Asi es la vida."
