Veronica tries to cope with losing her sister but is drawn to everything that seemingly took Megan away. A magical stone. Rune staves. A Viking king. The far distant past. It all seems too impossible to believe. Until she slides down a snow swept hill near Maine's, Raven's Nest cliffs straight into a reality she never could have imagined.

Of dragon blood and brother to the king, Raknar Sigdir 'the hunter' is determined to welcome any woman from the future if it means he can conquer anew for his people. For those he cares about most. However, Veronica, the irresistible woman thrust back in time, soon has his mind less on loot and more on all the things he forgot about himself.

Honor. Decency. Pride. The ability to love.

A pact with the seers hangs in the balance when a ninth century Viking gives in to his heart to protect a modern day woman from a sworn, powerful enemy...his former wife. Rash actions mean an uncertain outcome. A new fate unfolds. An ultimatum is given. A claim must be made. Now all that lies ahead is a challenge that might very well mean the loss of an unparalleled passion found across time.
