## Worldwide Evil and Misery - The Legacy of the 12 Satanic Bloodlines Robin De Ruiter

We are raised, by tradition, to trust our governments, and convinced that they care about us. This, however, is a big mistake. Below the surface of official politics lies a complicated social and intellectual process that is taking place. The visible world leaders are just mere puppets directed by an invisible power from behind the scenes. The world is governed by very different personages from what is imagined by those who are not behind the scenes. We are governed, our minds are molded, our tastes formed, our ideas-suggested, largely by men, that we have never heard of. In almost every act of our daily lives, whether in the sphere of politics or business, in our social conductor or our ethical thinking, we are dominated by the relatively small number of persons. We are dealing with the rise of a new geo-political supranational power on the world scene. This geo-political power consists of the richest families on this planet. Together with the most powerful multinationals they rule and control all countries and all coalitions. The true aim of this elite group is complete control of Planet Earth. Their target is to force a New World Order on the whole of mankind. The New World Order they are planning will be a World Dictatorship. Conservatives will call it Socialism or Communism. Liberals will call it Fascism. The label makes little difference; it will be the Gulag Archipelago on a worldwide basis. The time has come that we need to forget about the couch, the beer and the TV? If we do nothing, we will end up in a modern version of the dark ages. We need to start using our brains quickly, or it will be too late. The global dictatorship is a choice, just like freedom is a choice. Freedom can only be carried by people who can take responsibility for their ACTIONS. Dictatorship fills the void that is created by passive behaviour, an inability to take responsibility and the absence of natural leadership.
