The Advanced iOS 6 Developer's Cookbook (4th Edition) (Developer's Library) Erica Sadun
The Advanced iOS 6 Developer's Cookbook brings together reliable, proven solutions for cutting-edge iOS 6 development. World-renowned iOS expert Erica Sadun covers device-specific development, document/data sharing, Core Text, networking, image processing, onboard cameras, audio, Address Book, Core Location, GameKit,StoreKit, push notifications, and more.

As in her previous bestselling iOS books, Sadun translates today's development best practices into working code, distilling key concepts into concise recipes that are easy to understand and transfer into your own projects. This isn't just cut and paste. Using her examples, Sadun fully explains both the "how" and "why" of advanced and specialized iOS 6 development.

All code is tested with iOS 6 features and iPhone, iPad, and iPod touch capabilities. Throughout, every chapter groups related tasks together, so you can jump straight to your solution without having to identify the right class or framework first. Coverage includes

- Testing device properties so your app can take full advantage of the iOS unit it's running on
- Seamlessly sharing documents and data across apps and moving control between apps
- Presenting exceptionally attractive text with freeform text typesetting
- Building touch-based apps that leverage Bezier curves, splines, and other geometric tools
- Securing network apps via authentication, system keychains, and OAuth
- Accessing and processing image data to create special effects
- Integrating live camera feeds and user snapshots
- Presenting audio to users and enabling them to interact with it
- Effectively using Address Book frameworks and GUI classes
- Building advanced location apps with Core Location geopositioning and MapKit
- Creating connected game play with GameKit/Game Center: device-to-device networking, shared leaderboards, and Internet-based matches
- Integrating secure in-app purchasing with StoreKit
- Communicating with users from web-based services via push notifications
