## **The Colours of London Buses 1970s** Kevin McCormack

This is a color album of London Buses concentrating mainly on the 1970s which was the first decade since London Transport's inception in 1933 to feature a large number of buses on London streets which were not painted in the mainly all-red (or in a few cases, all-green) livery with which people are familiar. Vehicles in the traditional London liveries have not been ignored but many of the pictures depict this remarkably colorful era and often against the backdrop of famous or historically interesting landmarks which the author has been able to describe. As far as is known, none of the photographs has been published before, and the vast majority were taken by one photographer, sadly now deceased, who had the foresight to compose his picture well. The author is a well-known London Bus enthusiast and this is his 34th transport book and second for Pen & Sword.
