Giuseppe Caravita Di Toritto

Il Mercato dei Carbon Credits (Italian Edition) Giuseppe Caravita Di Toritto

Il volume descrive il funzionamento e la struttura del mercato di scambio dei crediti di carbonio e delle quote di emissione. Ne ricerca, innanzitutto, l'origine nella necessità di fronteggiare il fenomeno chiamato riscaldamento globale, e nell'importanza che negli anni hanno assunto alcuni principi, in particolare quelli di precauzione e dello sviluppo sostenibile. In secondo luogo, si prova a ricostruire, con riferimento all'ordinamento italiano, la natura giuridica delle quote di emissione e dei crediti di carbonio. Si analizzano poi separatamente il contesto del mercato del carbonio obbligatorio e volontario, soffermandosi in particolare sulla rilevanza del settore forestale dei crediti di carbonio, oggetto d'interesse di entrambi. In merito a quest'ultimo, si riportano le esperienze di alcune realtà estere, raffrontandole alla disciplina italiana, caratterizzata da una certa frammentarietà.
