Northcote W. Thomas

Since the foundation of the Society for Psychical Research more than twenty-three years ago, a great mass of more or less well-evidenced material has been published upon subjects such as THOUGHT-TRANSFERENCE, CRYSTAL GAZING, GHOSTS, MEDIUMSHIP, PHYSICAL PHENOMENA and other so-called “occult” manifestations. There have — notwithstanding the unquestioned great public interest in these subjects—been but few attempts to sum up the evidence and make it available for the ordinary citizen who cannot find time to read the whole of the thirty volumes published by the Society. Even in the Society's own publications there is, as a rule, no periodical summing up of the evidence for the various phenomena and hypotheses. This book by Professor Thomas — “Thought Transference” — deals critically and sympathetically with the evidence and shows what any reasonable man without bias in either direction may regard as proved.
