Developing Organization Ethics in Healthcare: A Case-Based Approach to Policy, Practice, and Compliance Ann E. Mills, Msc(Econ), MBA, Edward Spencer, MD, Patricia Werhane, PhD

Most healthcare is now delivered in an organizational setting, yet there are few books dealing specifically with the ethical implications of organizational issues in healthcare, and there are few casebooks focussing on the organizational aspects of healthcare ethics. This book remedies that situation. This book uses a series of cases on ethical issues in healthcare organizations. The cases are diverse, and include patients, clinicians, administrators, managers, and other individuals or groups within and outside of healthcare organizations.
