Told from a 2019 perspective when all the Earth is convulsing and the United States of America is collapsing due either to Nature taking back her own, or to a HAARP-driven error, or to a purposeful Tesla sabotage to force a new beginning, the five books of Sub Rosa America and the Fall of the New Atlantis comprise an occult history of the United States since November 22, 1963 that we all should have read years ago before we fell asleep in front of the TV, and not just in the Fifties . . . Book I, “Gone to Croatan,” revisits Sixties counterculture at the University of California at Santa Barbara just after the Bank of America has been burned to the ground. A tangled web of political intrigue generated by intelligence factions back East draws six protagonists together and forces a decision to flee into the Southwest desert where they will encounter a Mayan Timekeeper writing a chronicle of the fall of the New Atlantis.
