Suppose dreams were portals to different realities? ER nurse Jana Sinclair's recurring dream compels her journey to jungle-shrouded Maya ruins where she discovers links with ancient priestess Yalucha, who was mandated to hide her people's esoteric wisdom from the Conquistadors. Jana's reluctant husband is swept into strange experiences and warns against further involvement. As the Maya calendar approaches its ending in 2012, Jana answers the call across centuries to re-enact a mystical ritual for successful transit into the new era, contending with dark shamanic forces bent on preventing her mission and her husband's devastating ultimatum—and activates forces for healing their relationship.
