**Essentials of Anatomy and Physiology Lab Manual** Bert Atsma, Leigh Rappaport Levitt, Richard McKeeby, Jessica Potell Sand

This manual features concise labs that focus on basic A & P course concepts. The organization reflects a traditional body systems approach. Each lab is presented with learning objectives, an introduction to the chapter topic, clear procedures, and embedded questions that promote interaction with, and understanding of the material. An extensive one-color art program illustrates each lab to clarify text discussions for students. This lab manual is also available for custom publishing with instructors' own labs: instructors can make their selections through the Benjamin Cummings website at [www.awl.com/bc](http://www.awl.com/bc).
