**Arbitration and Contract Law: Common Law Perspectives (Ius Gentium: Comparative Perspectives on Law and Justice)** Neil Andrews

This book deals with the contractual platform for arbitration and the application of contractual norms to the parties' dispute.

Arbitration and agreement are inter-linked in three respects: (i) the agreement to arbitrate is itself a contract; (ii) there is scope (subject to clear consensual exclusion) in England for monitoring the arbitral tribunal's fidelity and accuracy in applying substantive English contract law; (iii) the subject-matter of the arbitration is nearly always a 'contractual' matter. These three elements underlie this work. They appear as Part I (arbitration is founded on agreement), Part II (monitoring accuracy), Part III (synopsis of the English contractual rules frequently encountered within arbitration).

The book will be a useful resource to foreign lawyers or English non-lawyers, English lawyers seeking a succinct discussion, and to arbitral tribunals.?
