**This is a history of the relations between the Europeans and the Native Americans in the 18th century, with an emphasis on the Iroquois nation.**

From the intro:

“So it was, in the year 1742, in the reign of King George the Second, that Thayendanegea was born among the Mohawks on the banks of the Ohio. To the untaught savage this sluggish stream was a thing of life, and he called it the ‘River Beautiful.’ The Ohio valley was at this time the favourite hunting-ground of the Indian peoples. Because this valley was rich in game and comfortable to dwell in, it had been a scene of bitter strife. The problem of rule on the Ohio was of long standing. For a whole century Delaware and Shawnee and Wyandot and Six Nations contended for the territory; tribe was pitted against tribe, and then at last the answer was given. The Iroquois confederacy, or Six Nations, [Footnote: Mohawks, Cayugas, Senecas, Oneidas, Onondagas, and Tuscaroras.] whose villages lay by the Hudson river, united, determined, and vengeful, had gained the ascendancy; from the banks of the Hudson to the seats of the stranger beside lake Erie the lands belonged to them; and other tribes to the east and west and north and south paid them tribute. The Mohawks were the mightiest of the Six Nations; in the confederacy they were chief in council; from their ranks was chosen the head war chief, who commanded on the field of battle; they took the first-fruits of the chase, and were leaders in everything.”
